Equipment Maintenance Management Insurance Program
(EMMP)

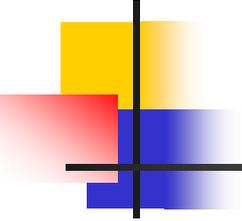

October, 2011

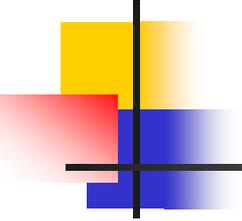

EMMP

- DGS-ORIM established this program through an existing contract with Alliant Insurance Services
- Alternative solution that replaces the conventional service contract or extended warranty plan
- Reduces equipment maintenance cost by 25%
- Provides enhanced visibility regarding equipment and related maintenance activity
- Currently covering 1,300+ equipment items located in 19 divisions

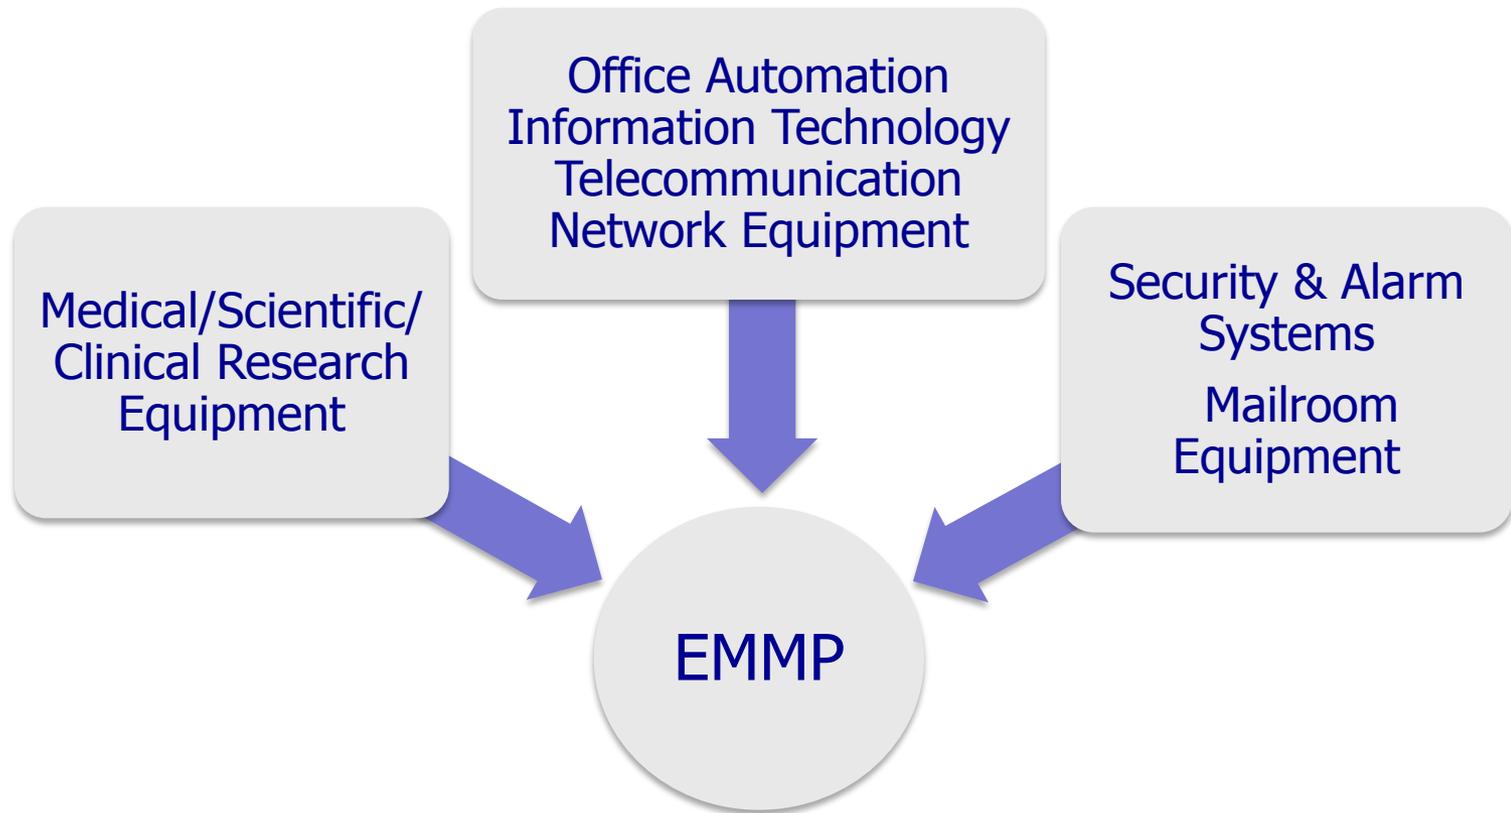

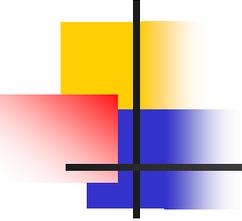

EMMP

- Annual savings of \$406K and growing
- Covers most types of electronic equipment
- Pays for repairs and scheduled preventative maintenance
- Maintenance service performed by your current service provider, the manufacturer or any authorized service provider
- The REMI Group is the program administrator handling service requests, payments to service providers, and overall program support

EMMP

EMMP

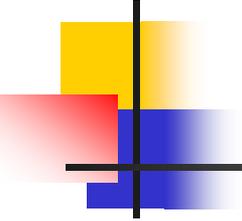

To receive a quote, provide ORIM with the following:

Current Service Contracts:

- Copies of actual service contracts
- Current pricing with terms and conditions

If you do not have a Service Contract:

- Copy of the equipment purchase order
- Equipment list with manufacturer, model number, serial number, and equipment location
